Re: Pride Solvents & Chemical Co., Inc.
Draft Hazardous and Solid Waste Amendments permit
EPA I.D. No.: NYD 057 722 258

Dear Mr. Bellina:

I represent Pride Solvents & Chemical Co., Inc.

On behalf of my client, I request a Class 1 Modification to the EPA HSWA Permit to change the Permit expiration date to June 1, 1994 in accordance with 40 CFR §270.42(a). I also request that the EPA HSWA Permit be reissued for non-authorized HSWA requirements in accordance with Module I Section D.2 of the existing HSWA Permit.

This request is being made and is based upon information provided to the undersigned that the NYS DEC that they shall be issuing the 6 NYCRR Part 373 Permit to Pride and that Pride's application submitted to the NYS DEC on January 27, 1986 as amended through December 1993 constitute a complete permit renewal application.

In the event that the NYS DEC does not issue a 373 Permit to Pride to take effect on June 1, 1994 then the authority granted by this letter shall be automatically withdrawn.

Very truly yours,

ROBERT G. DEL GADIO
